Introduction to Sweave (R + LaTeX)

Dr. Nathaniel Phillips (nathaniel.phillips@unibas.ch (mailto:nathaniel.phillips@unibas.ch))

2016-06-11

Get ready to Sweave!

This tutorial provides a brief overview of how to create Sweave (LaTeX + R) documents in APA style.

0: Setup

Install LaTeX packages

In order to create LaTeX documents, you need to install LaTeX libraries on your computer. Here are links to Mac and Windows LaTeX libraries

- Mac MacTeX Download (https://tug.org/mactex/mactex-download.html)

- Windows MikTeX Download (http://miktex.org/download)

Install R and RStudio

Install the latest versions of R and RStudio

- R (>= 3.3.0) Windows (https://cran.r-project.org/bin/windows/base/), MAC (https://cran.r-project.org/bin/macosx/)

- RStudio (>= 0.99.902) Windows (https://download1.rstudio.org/RStudio-0.99.902.exe), MAC (https://download1.rstudio.org/RStudio-0.99.902.dmg)

Install R packages

Processing math: 100%
